DETAILED ACTION

The amendment filed on December 13, 2007 has been entered in part. The abstract and claims 1 and 3-23 have been amended. Claims 1 and 3-23 are currently pending.

The substitute specification filed on December 13, 2007 has not been entered because it was not accompanied by a statement that it includes no new matter as required by 37 CFR 1.125(b). See MPEP § 608.01(q).

Claims 1 and 3-23 are allowable.

Conclusion

This application is in condition for allowance except for the following formal matters:

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The following title is suggested: Bidirectional Drive.

The disclosure is objected to because of the following informalities: Throughout the description the disclosed device is referred to as a “bilateral” drive. The term “bilateral” implies two-sided. A more accurate description would be “bidirectional” since the drive mechanism transmits torque in either the clockwise or counterclockwise directions.

Appropriate correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
